

The majority of Otolaryngologists and Hearing Health Care Professionals in the U.S. believe that patients who wear ear protection, especially custom-molded protectors or preformed rubber ear plugs, should **also** wear a tight-fitting cap or band for **extra** protection when swimming or showering.

Use of the PHYSICIANS' CHOICE Headband is an effective, stylish, and comfortable way of keeping water out of the ears and ear protectors in place.

The PHYSICIANS' CHOICE Head Band is happily worn by boys and girls. The Velcro closure allows easy adjustments for a comfortable fit. It is fabricated from "wet-suit" neoprene material, which is many times more durable than conventional swim caps. Reversible, each Head Band is dual colored.

Available in a variety of colors and sizes:

- **SB-41206 Small, Ages 18 months - 4 years**
- **SB-41207 Medium, Ages 5 - 10 years**
